Expertise

Jenn Dimura has over 20 years of versatile pharmacy and PBM account management experience with both managed care and retail experience. Jenn has worked in account management providing client-specific business plans focusing on client goals, performance expectations, growth in membership and profitability. Her knowledge of financial and pricing models to analyze and enhance client clinical scenarios provide illustration of various benefit strategies addressing a multitude of organizational goals.

Jenn is adept in managing client renewals, including review and proposal of pricing terms, mitigation of organization risks with respect to performance guarantees and effective communication to utilize various utilization strategies.

As a clinical pharmacist, Jenn has developed clinical communications and marketing materials to promote clinical programs, manage prior authorization reviews and work with other internal departments to control costs and maintain a high-quality pharmacy benefit. Further, her active participation in providing drug research and analysis for invention recommendations has enhanced her skills.

Education

Bachelor of Science, Albany College of Pharmacy

Education

American College of Sports Medicine (ACSM) | Exercise Physiologist | Alliance Member
American Council on Exercise (ACE) | Schwinn Spinning Certified
